Aspiring Web Developer

I am an aspiring web developer proficient in python, Django, HTML, CSS and Vanilla JavaScript , with additional knowledge in C programming. My goal is to grow into a professional web and software developer while exploring fields such as automation, Artificial intelligence (AI), and the Internet of Things (IOT).

Skills

- Proficient in Python,Django,HTML, CSS, Vanilla JavaScript, and C
- Strong problem-solving abilities
- Familiar with web development principles and technologies
- Enthusiastic about emerging technologies like AI and IOT

Projects

1. **TaskTrackr** – A task management app designed to help users create, track and manage tasks efficiently. Built with Python,Django, HTML, CSS, and JavaScript.
2. **DevPortfolio** – A personal portfolio website showcasing my web development skills. Projects, and certifications. Built with HTML, CSS, and JavaScript.

Education and certifications

- **HTML certification** – Mind Lusters
